SYNTHETIC PROFILE. Not an SEC filing. Illustrative data written by Team 24 for the LaneRoom demo. It is not information from or about the real company First Star LLC, and no figure in it is a real reported result.

First Star

Carrier and 3PL profile prepared for shipper tender review, fiscal year 2025.

Profile type: provider questionnaire (synthetic). Provider type assumed for the demo: small asset-light carrier and 3PL. Status: unaudited. Ownership: privately held, so no Form 10-K is filed with the SEC.

SYNTHETIC PROFILE. Not an SEC filing and not data from First Star LLC. Illustrative figures for the LaneRoom demo.

Item 1. Business

First Star is presented in this demo as a privately held, asset-light carrier and third-party logistics provider that runs a small truckload fleet and brokers overflow freight.

In this illustrative profile the company operates 140 company tractors and 420 dry van trailers and works with 3,100 contracted partner carriers.

It offers regional truckload, LTL consolidation and expedited service, with a focus on Midwest origins.

Its ten largest shippers generated 62% of revenue in 2025 in this synthetic profile, and its largest shipper generated 17%.

It targets tender acceptance of 90% on contracted lanes and shares a monthly scorecard with each shipper.

SYNTHETIC PROFILE. Not an SEC filing and not data from First Star LLC. Illustrative figures for the LaneRoom demo.

Item 1A. Risk Factors

First Star's small fleet limits its capacity in peak season: in the fourth quarter of 2025 partner carriers hauled 44% of its loads, compared with 29% earlier in the year.

Customer concentration is high, so losing one large shipper could reduce revenue and lane density materially.

The company is privately held and its financial statements are not audited by a registered public accounting firm or filed with the SEC.

A shortage of qualified drivers could raise driver pay and leave tractors unseated.

Its revolving credit facility of $12 million was $8 million drawn at year-end 2025, which may limit fleet growth.

SYNTHETIC PROFILE. Not an SEC filing and not data from First Star LLC. Illustrative figures for the LaneRoom demo.

Item 2. Properties

Location	Type	Doors
Main terminal	Terminal	28
Drop yard	Drop yard	0

First Star does not operate intermodal service in this profile; long-haul and West Coast freight is brokered to partner carriers.

SYNTHETIC PROFILE. Not an SEC filing and not data from First Star LLC. Illustrative figures for the LaneRoom demo.

Item 7. Operating and financial summary

All figures are synthetic, illustrative and unaudited.

Metric	2025	2024
Revenue (in millions)	$96.4	$88.1
Operating income (in millions)	$3.1	$2.6
Operating ratio	96.8%	97.0%
Net cash provided by operating activities (in millions)	$4.0	$3.3
Company tractors	140	128
Loads hauled and brokered (in thousands)	61	57

Revenue increased 9.4% in 2025 on new regional contract awards, and operating income rose as the fleet ran more loaded miles.

The company reported an on-time delivery rate of 92.8% and a cargo claims ratio of 0.29% of revenue on contract lanes in 2025.

Its average linehaul rate on dry van contract freight, excluding fuel surcharge, was $2.24 per mile in 2025.
